

# BIOGRAPHICAL INDEX OF THE PROCEEDINGS AND DEBATES OF THE IDAHO CONSTITUTION

## INTRODUCTION & NOTES

As part of the 1990 Idaho Centennial celebration, the Idaho Humanities Council supported a number of projects dealing with the Idaho Constitution and Statehood. This index was one of those projects. Readers are encouraged to investigate two other sources also supported in part by the I.H.C.: 1) Idaho's Founders: The History of Idaho's Constitution, a 26 minute video depicting the delegates and issues of the Constitutional Convention, and, 2) Idaho's Constitution: The Ties that Bind, by Dennis Colson, Professor of Law, University of Idaho Press, Moscow, Idaho.

The data for this index was compiled on the Apple computer program, Microsoft Word 4, and is available on disc for use through the Idaho Humanities Council Resource Center, 217 West State St., Boise, ID 83702.

The primary focus in compiling this Index is to generate a tracking system for each delegate and to begin to evaluate the dynamics of the Convention in terms of the day to day interaction on the floor.

In researching a previous I.H.C. centennial program project on the individual convention delegates, it became difficult, if not impossible, to evaluate their individual impact without knowing the total pattern of interaction, i.e., which delegate spoke on which issue and what was the total contribution of each delegate. In the process of sorting out this information, it became apparent that at least two other factors were traceable and worth recording: 1) voting on issues and recorded votes and, 2) who was chairing the sessions throughout the convention.

As a result, this project began and the following format evolved:

Daily Log - Day of Convention - Date  
(Pages covering that day's debate)

### Roll Call

Present:	Number	/ Delegate Names (when given)
Excused:	Number	/ Delegate Names
Absent:	Number	/ Delegate Names

---

Total Recognized Delegates, Total on the Floor, Total Debaters

## INTRODUCTION & NOTES (continued)

Roll calls frequently indicate a person absent and yet taking part in the debates. See 20th day for an example where Claggett, McConnell, Sweet and Wilson are absent for Roll Call, yet take part in the debates. Thus roll call figures - 44 present, 26 absent, are adjusted by indicating the figure "Number of Delegates on the Floor".

### Subject (Including Chairmen as they appeared chronologically)

As articles were debated, certain sections were passed without debate or comment. These sections receive no or only brief reference in this log. For example, on the 17th day, Article II, Section I on p. 805 is adopted without debate and the log does not report the action, moving on to Section II, p. 806 - 810 which did generate debate. These log references are based primarily on the captions provided by I.W. Hart as editor of the original text.

### Recorded Votes

As the intention of the Index is to monitor the daily activity, roll calls and votes indicate the number of delegates at any one time who were physically participating on the floor. For example, the 12th day roll call shows 63 delegates out of 70 present at the start of the day, yet no vote during the day was larger than 56. By the final vote of that day on private taking of property, there were only 39 members on the floor voting. This represents a loss of 24 delegates during the day.

A future side benefit of listing the recorded votes will be the study of the votes and the subject being considered in relationship with other voting patterns, particularly partisan voting patterns.

### Debater Index (Number of debaters taking active part)

This Index shows the dynamics of the debate. Following the example given above for the roll call and recorded votes, the debater index for the 12th day shows only 23 delegates participating, and of that group, 8 were one-time participants. Thus, on the debate of the Declaration of Rights on the 12th day, approving issues involving jury trials, due process and private taking of property, only 15 men shaped and directed this facet of Idaho's future.

To read the notations in the Index the following information is given:

Ainslie 183 (the delegate spoke once)

Ainslie 183 - 184 (the delegate spoke on p. 183 and carried over to p. 184 and spoke again)

Ainslie 183 (2) -186 (the delegate spoke twice on p. 183 and carried over to p. 186)

Woods (518)\* (This delegate is mentioned in a significant way by another speaker, i.e. Woods, on p. 518 is said to be in need of indefinite leave of absence for reasons of his physical disability.

<sup>9</sup> Orlando Batten is shown to speak at various times on p. 192 - 197, yet the content suggests that James Beatty was the speaker. Batten was a Democrat, but on p. 193 he is quoted as saying ". . .I, as a Republican. . ." and continues to discuss the issue from a Republican perspective. Further, on p. 196, the speaker in question states the Statesman "ungraciously lashed" him 2 years ago when he was in the Territorial Council. Batten was never a member of the Council, whereas Beatty served Alturas Co. in the Council in 1887.

<sup>11</sup>It is not apparent who is in the Chair. Claggett as Mr. President was absent at roll call, yet he takes part in the debates from the floor on p. 1212. The roll call note states "Convention called to order by the President" (p. 1188). Reid chaired the convention in the afternoon (p. 1237) and does not debate in the morning. He is a likely candidate to have chaired the morning session.

<sup>12</sup> Hagan is shown to have voted twice and yet is absent on the roll call. This could be an error or spelling confusion with Hogan who was shown present at roll call but is not shown as a voter on these issues. Hagan left the convention in disgust over the handling of private property rights and later asked for a leave of absence for business.
